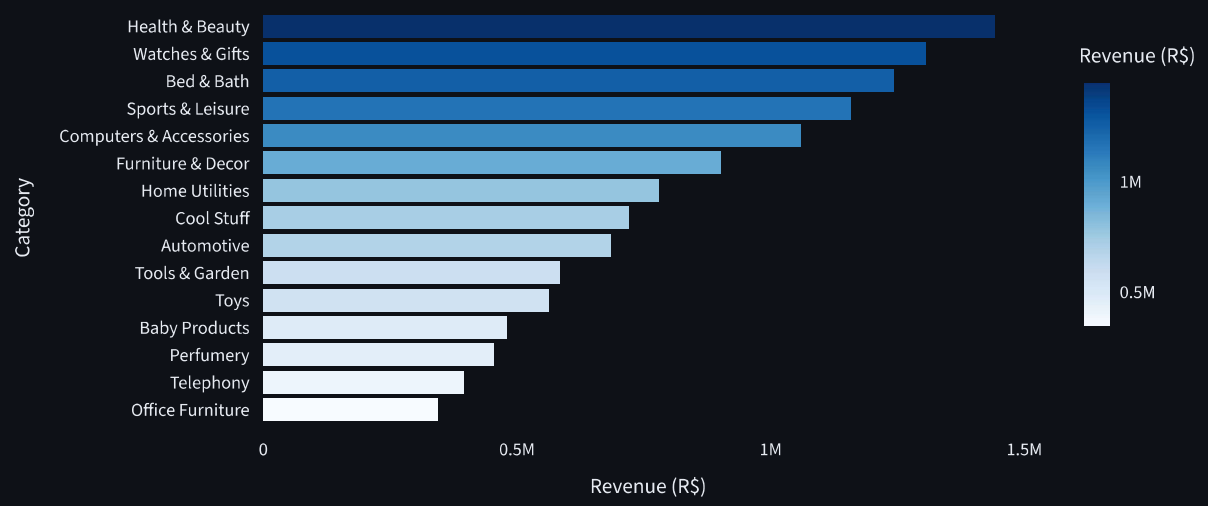
Section 5: Product Performance

Top 15 Product Categories by Revenue



Section 6: Key Business Insights

- 💰 **Total revenue of R$ 15,843,553.24** generated across all delivered orders.
- 🏆 **Top 20% of customers contribute 53.52% of total revenue** — classic power law distribution.
- 📉 **97.0% of customers never return after their first purchase** — churn is the biggest threat to growth.

- 👥 Out of **93,358 unique customers**, only **2,801 are repeat buyers**.
- 📦 **Health & Beauty (beleza_saude) is the top revenue category** — ideal target for loyalty programs.
- 📅 **Cohort analysis shows retention collapses after month 1** — onboarding experience is critical.

🔴 Section 7: Business Recommendations

- 🎯 **Launch a loyalty program targeting High-value segment** — they drive 67.8% of revenue and must be retained.
- 📧 **Implement post-purchase email sequences** — most churn happens after order 1, automated follow-ups can recover buyers.
- 🛍️ **Cross-sell Health & Beauty with Watches & Gifts** — top 2 categories, high affinity likely exists.
- 📊 **Investigate Oct-Nov 2016 cohort drop-off** — sharp retention fall visible in cohort heatmap needs root cause analysis.
- 💳 **Introduce subscription or bundle offers for Mid-value segment** — easiest group to push into High value.
